EXPERIENCE

VisionLeads.io

Jan 2025 – Current

Software Developer

- Develop and maintain front-end components for our internal web applications using JavaScript, Typescript and React.

- Assist the senior team with debugging, troubleshooting technical issues, and implementing new features.

- Contribute to the technical documentation for our projects to ensure clarity and knowledge sharing.

Royal Canadian Mounted Police

Sept 2023 – April 2024

TECHNICAL ANALYST (CENTRAL HELP DESK)

- Provided technical support over phone and remote access, assisting users in resolving IT-related issues efficiently

- Documented incidents and resolutions by completing service tickets with detailed problem descriptions and steps taken

- Escalated complex issues to higher-level support teams when necessary to ensure timely resolution
